

**POTHOLE PATCHING SEASON UNDERWAY** — An Ephrata Public Works Department crew cleans out a pothole on D Southeast Friday morning in preparation for patching. The city received its first batch of asphalt for the season this morning and work is now underway patching damaged streets throughout town after a winter that was particularly rough on residential streets. The city has scheduled an information open house on the proposed street and waterline repair and replacement project at 6:30 p.m. May 2 in the Ephrata City Hall.
