

CONSTRUCTION ANNOUNCEMENT-9

Phase-III of the Ephrata Waterline & Street Replacement Project is beginning week 9 of 24. This four-year, \$10-million dollar project will replace 24-miles of aging waterlines and failing streets.

Next week, 24-28 May, the following streets/areas will be impacted by construction:

Nat Washington Way: Detoured to Division Street, around the PUD, near the railroad crossing.

A-Street: From the Middle School to Nat Washington Way.

Swanson Addition: Most streets.

SW Area: Beginning at 16th and moving north towards 3rd Avenue.

Construction will completely block the Northbound (Middle School side) lane of A-Street SE. All drivers should avoid this area, if possible.

Traffic delays will be extreme during the Middle School student drop-off time, mornings and afternoons. Avoid using A-Street SE during these times.

The project will move into the Southwest neighborhoods around of C-Street SW for the first time. Residents in those areas should be aware of, and follow, all notices from the contractor.

Crews from Advanced Excavation will generally work a 4-10 schedule; work starting at 7:00am and ending at 5:30pm, Monday-Thursday.

All cars will need to stay off of these streets until construction crews reopen the roadway. **Cars not off the street shall be towed at the owner's expense.**

If we all cooperate together, our new waterlines and beautiful new streets will be finished on time, and under budget. If you have questions at any time, contact City Hall at 754-4601.

Information, construction schedules, and feedback forms, including photos of the project, are available at www.ephrata.org.
