

# CONSTRUCTION UPDATE-10

Phase-I of the Ephrata Waterline & Street Replacement Project has completed week 8 of 18.

This four-year, \$10-million dollar project will replace 24-miles of aging waterlines and streets.

**Next week, 11-15 August 2008, the project will be excavating, working, and/or paving on L-Street from Division Street to 1<sup>st</sup> Avenue NE, K-Street from Division to 2<sup>nd</sup>, and all of J, I, H, G and F-Streets from Division to 3<sup>rd</sup> Avenue NE.**

In general, the project is moving from east to west; with excavation taking place first, followed by pipe installation, and paving finishing last.

Paving will begin towards the middle of the week, starting on L-Street and moving west.

All cars will need to stay off of these streets until construction crews reopen the roadway.

**Cars not off the street shall be towed at the owner's expense.**

If we all cooperate together, our new waterlines and beautiful new streets will be finished on time, and under budget. If you have questions at any time, contact City Hall at 754-4601.

Information, construction schedules, and feedback forms, including photos of the project, are available at [www.ephrata.org](http://www.ephrata.org).
