

# FIRST CONSTRUCTION ANNOUNCEMENT

Phase-II of the Ephrata Waterline & Street Replacement Project is beginning week 1 of 20. This four-year, \$10-million dollar project will replace 24-miles of aging waterlines and streets.

Next week, 20-23 April, the project will commence.

Grinding of D-Street SE will begin Monday 20 April at Nat Washington Way and proceed South towards 8<sup>th</sup> Avenue SE.

Mainline installation will occur as soon as possible on D-Street SE.

Crews from Watts Construction will generally work a 4-10 schedule; work starting at 7:00am and ending at 5:30pm, Monday-Thursday.

All cars will need to stay off of these streets until construction crews reopen the roadway. Cars not off the street shall be towed at the owner's expense.

If we all cooperate together, our new waterlines and beautiful new streets will be finished on time, and under budget. If you have questions at any time, contact City Hall at 754-4601.

Information, construction schedules, and feedback forms, including photos of the project, are available at [www.ephrata.org](http://www.ephrata.org).
