

CONSTRUCTION ANNOUNCEMENT-21

Phase-II of the Ephrata Waterline & Street Replacement Project is on week 19 of 20. This four-year, \$10-million dollar project will replace 24-miles of aging waterlines and streets.

Next week, 08-11 September, the project will continue to impact the entire Southeast Area North of Nat Washington Way.

All roads in the area are scheduled to finish paving this week.

There will be occasional work on all the streets as valves and manholes are brought back up to grade.

Until a change is announced by the school- Traffic to and from Columbia Ridge School must use **DIVISION STREET ONLY and avoid H, Ivy, and 1st Streets SE.**

Student drop-off will be at the Tennis Courts on Division Street only.

Crews from Watts Construction will generally work a 4-10 schedule; work starting at 7:00am and ending at 5:30pm, Monday-Thursday.

All cars will need to stay off of these streets until construction crews reopen the roadway. Cars not off the street shall be towed at the owner's expense.

If we all cooperate together, our new waterlines and beautiful new streets will be finished on time, and under budget. If you have questions at any time, contact City Hall at 754-4601.

Information, construction schedules, and feedback forms, including photos of the project, are available at www.ephrata.org.
