

## **CONSTRUCTION ANNOUNCEMENT-4**

Phase-II of the Ephrata Waterline & Street Replacement Project is on week 3 of 20. This four-year, \$10-million dollar project will replace 24-miles of aging waterlines and streets.

**Next week, 11-15 May, the project will impact the area from 3<sup>rd</sup> to 9<sup>th</sup> Streets and D-Street SE, South of Nat Washington Way.**

**Main lines will continue to be installed on 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Streets SE. A second crew will commence installation of service lines on D-Street SE, starting at Nat Washington Way and heading South to 9<sup>th</sup> Street SE.**

**Crews from Watts Construction will generally work a 4-10 schedule; work starting at 7:00am and ending at 5:30pm, Monday-Thursday.**

**All cars will need to stay off of these streets until construction crews reopen the roadway. Cars not off the street shall be towed at the owner's expense.**

If we all cooperate together, our new waterlines and beautiful new streets will be finished on time, and under budget. If you have questions at any time, contact City Hall at 754-4601.

Information, construction schedules, and feedback forms, including photos of the project, are available at [www.ephrata.org](http://www.ephrata.org).
