

CONSTRUCTION ANNOUNCEMENT-6

Phase-II of the Ephrata Waterline & Street Replacement Project is on week 4 of 20. This four-year, \$10-million dollar project will replace 24-miles of aging waterlines and streets.

Next week, 26-29 May, the project will continue to impact the area from 3rd to 9th Streets and D-Street SE, South of Nat Washington Way.

Crews will install service lines and meter boxes on D-SE, then 8th Avenue SE, working back on each street to 5th Ave. Service line, hydrant, meter box, and pad work will continue on all streets in the project area South of Nat Washington Way.

Crews from Watts Construction will generally work a 4-10 schedule; work starting at 7:00am and ending at 5:30pm, Monday-Thursday.

All cars will need to stay off of these streets until construction crews reopen the roadway. Cars not off the street shall be towed at the owner's expense.

If we all cooperate together, our new waterlines and beautiful new streets will be finished on time, and under budget. If you have questions at any time, contact City Hall at 754-4601.

Information, construction schedules, and feedback forms, including photos of the project, are available at www.ephrata.org.
