

# CONSTRUCTION UPDATE-8

## ROAD CLOSED TO THRU TRAFFIC

Phase-I of the Ephrata Waterline & Street Replacement Project has completed week 6 of 18.

This four-year, \$10-million dollar project will replace 24-miles of aging waterlines and streets.

**Next week, 28 July-01 August 2008, the project will be excavating, working, and/or paving on L-Street from Division Street to 1<sup>st</sup> Avenue NE, K-Street from Division to 2<sup>nd</sup>, and all of J, I, H, and G-Streets from Division to 3<sup>rd</sup> Avenue NE.**

In general, the project is moving from east to west; with excavation taking place first, followed by pipe installation, and paving finishing last.

All cars will need to stay off of these streets until construction crews reopen the roadway. Local traffic should avoid this area as well, so as not to interfere or delay this important work.

**Cars not off the street shall be towed at the owner's expense.**

If we all cooperate together, our new waterlines and beautiful new streets will be finished on time, and under budget. If you have questions at any time, contact City Hall at 754-4601.

Information, construction schedules, and feedback forms, including photos of the project, are available at [www.ephrata.org](http://www.ephrata.org).
